T001

The background is a complex digital collage. It features a close-up of a woman's face, with her eyes and nose visible through the negative space of the large black text 'T001'. The image is overlaid with a grid of glowing lines in red, orange, yellow, and green, creating a sense of depth and digital connectivity. The overall color palette is dominated by these warm, vibrant hues, with the black text providing a stark contrast.

CARBON ROBOTICS

A dual-arm robotic system, identified as STAR, is shown performing a laparoscopic surgical procedure. The robot's white and grey articulated arms are positioned over a patient, with its end effectors (surgical tools) visible. The scene is illuminated with green and blue lights, creating a clinical and high-tech atmosphere. A monitor in the background displays a surgical view. The text 'STAR' is overlaid in large, glowing red-outlined letters at the top center.

STAR

Smart Tissue Autonomous Robot

A robot has performed a laparoscopic operation without the guidance of a surgeon's hand, and it produced significantly better results than humans performing the same procedure.
